

FLEXIBLE

Models TSF and TTF

Flexible tunnel simplifies installation around attic obstructions. Mirror finish stainless steel rings are incorporated in the inside of the top frame and the lower end of the tunnel to reflect light from all angles.

FLEXIBLE SIZES

- 14" diameter for 16" center framing and 22" diameter for 24" center framing 
- 8' of tunnel included in standard kit for TSF/TTF 014; 6' of tunnel included in standard kit for TSF/TTF 022 
- Additional tunnel sold separately for TSF/TTF 022 (Max. recommended length is 8' for 014 and 12' for 022)

RIGID

Models TSR and TTR

Adjustable rigid tunnel with a highly reflective coating. Dual adjustable elbows offer easy alignment.

RIGID SIZES

- 10" and 14" diameter for 16" center framing 
- Standard kit will span 43" with straight run 
- Additional tunnel sold separately (Max. recommended length is 14' for 010 and 18' for 014)

FLASHING FOR TILE ROOF INSTALLATION AVAILABLE (Special Order Item)

Rigid

TURN YOUR SKYLIGHT INTO A LIGHT SOURCE AT NIGHT

The optional light kit adds a whole new dimension to your VELUX SUN TUNNEL skylight. It comes pre-assembled and is ready for wiring into a standard junction box.

(Not available for size 010)

SKYLIGHT SPECIFICATIONS

DOME

U.V. stabilized grade A acrylic. Low profile dome design parallels slope of roof for attractive appearance.

Impact models available for hurricane prone areas.

DUAL DIFFUSER (except size 010)

Dual system provides even light distribution, preventing hot spots.

ROOF FLASHING

One-piece design fits shingle or shake roofs. Corrosion resistant 24 gauge Colorbond Steel. Available in pre-bent form, as a special order, with flexible strip for tile roofs. The pre-bent form for tile roof applications is available for 14" and 22" sizes.

CEILING FRAME

Flush mount white ceiling ring with matching caps to hide fasteners.

GASKET

White rubber gasket seals diffuser at the ceiling which minimizes heat loss and condensation in the tunnel.

ENERGY STAR®

Most models meet ENERGY STAR approval guidelines (TSR 010 is currently undergoing testing for compliance to ENERGY STAR guidelines).

GUARANTEE

A ten year guarantee against manufacturer's defect, rust corrosion, and deterioration.

IN TWO HOURS, THE WHOLE ROOM IS REDECORATED WITH NATURAL LIGHT

Before

After

A complete roof-to-ceiling daylighting system, the VELUX SUN TUNNEL skylight is the easiest, most affordable way to add style, beauty and value to your home.

The VELUX SUN TUNNEL skylight is fast becoming a leader in the natural lighting industry, because it can deliver more light with far more efficiency, not to mention at a much lower cost.

Whether you do it yourself or have it done by a professional contractor, the VELUX SUN TUNNEL skylight's leak-proof design, along with its color bond coated steel flashing, fits any style shingle or shake roof. Flashing available for tile roofs (special order item).

Installation is quick, easy and can be completed in just two hours with only basic carpentry skills required. This means minimal time in the attic.

The VELUX SUN TUNNEL skylight is the perfect solution for hallways, laundry rooms, bathrooms, kitchens, walk-in closets – anywhere that would benefit from natural light, but does not require a view to the world. Areas that lack windows can now be your brightest rooms decorated with beautiful natural light. Save on energy bills, and give your home a healthy, more inviting feeling throughout the day.
