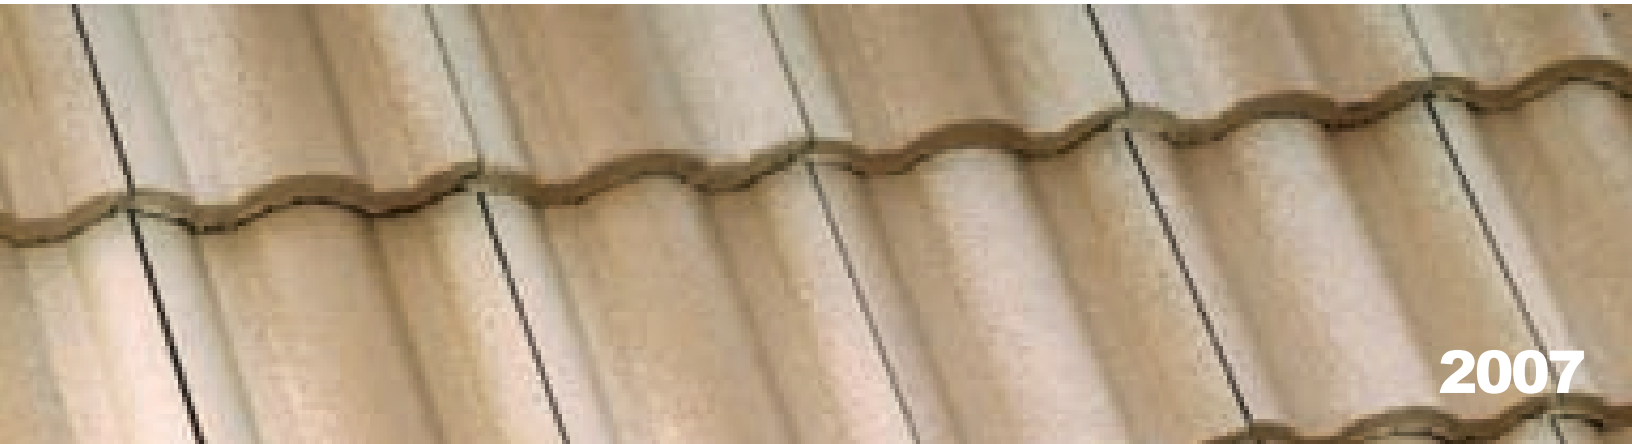
Eagle Roofing Products Florida Collection

EAGLE ROOFING PRODUCTS

Eagle Roofing Products Florida LLC
A subsidiary of Burlingame Industries, Inc.

Concrete Tile Roofs



2007

Eagle Roofing Products. The Company of Choice.

American Made. American Owned.
Eagle Roofing Products is a Division of Burlingame Industries a California based privately held, family-owned organization. From these family roots, our business philosophy and vision have blossomed. Eagle began operations in the fall of 1989 with one high-pressure concrete tile extrusion machine. Today, Eagle's Rialto, California facility is the largest in North America.

Our Phoenix, Stockton, and Rialto, facilities have grown rapidly to meet the demand for concrete tile. Now with expansion into Florida, Eagle is working towards its goal—customers should never have to wait for tile.

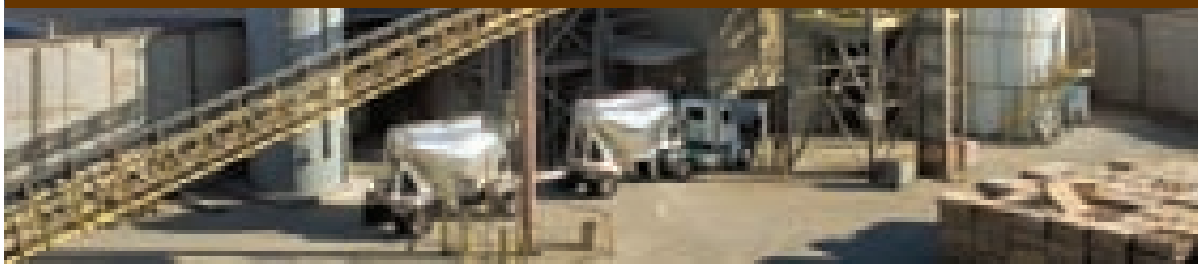
Eagle Roofing Products wants to be the company of choice for:

- Our team members and their families
- Our customers and their customers
- Our suppliers

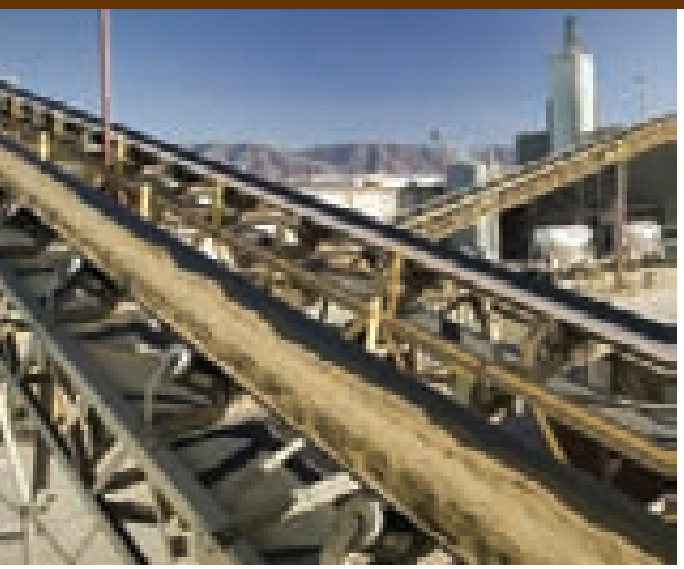
The Eagle Way.
Over the years, Eagle has grown due to a philosophy that revolves around growing personal relationships. Our vision starts with our employees and is reflected in our relationships with our customers and our business partners. Having built a reputation as the preferred company to do business with, we listen to our customers and react

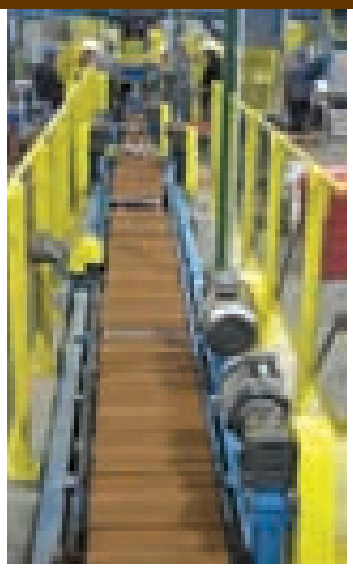
Quality starts with the people who founded the company.

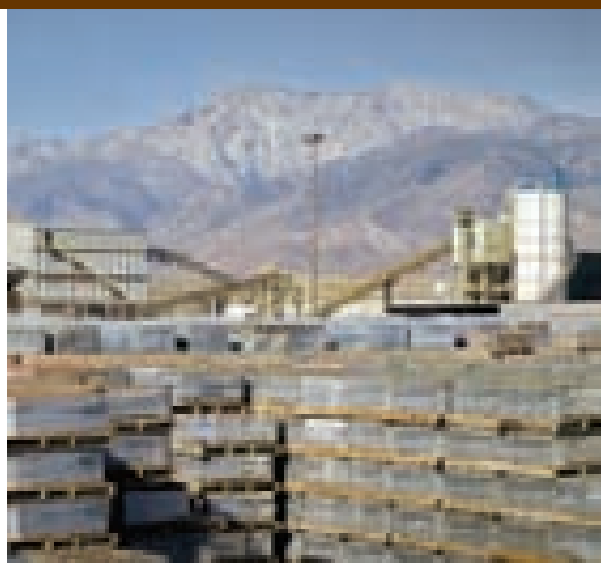
Selection of premium raw materials is essential to guaranteeing a quality concrete roof tile.



Eagle prides itself on building modern automated high-speed manufacturing facilities.







1989

Eagle Roofing Products is founded by Burlingame Industries. Eagle's Rialto, California Plant opens servicing all of California, Arizona and Nevada.

1998

The Irvine, California Design Center opens. It is the first of its kind in the tile roofing industry.

1999

Additional production lines are added to the Rialto plant providing the capacity to produce tile for over 83,000 homes per year.

2000

Eagle's first Phoenix, Arizona plant opens servicing the Southwest, Texas and the Rocky Mountain areas.

quickly to satisfy their needs. Each and every person in our company is a Customer Service Representative—from field personnel, to our Order and Shipping departments, to our experienced manufacturing staff—each team member performs with the singular goal of customer satisfaction.

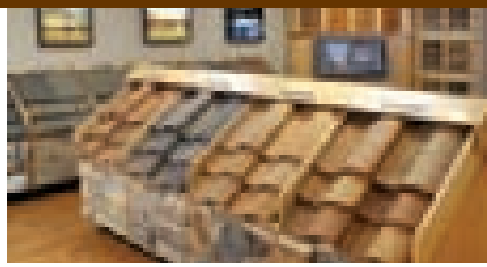
Eagle's long experience in the roof tile industry and dedication to prompt personal response to its customers needs have resulted in a well-deserved reputation for quality and service—a reputation that is unmatched. Eagle is customer service.

Eagle is Choices.
No other concrete roof tile manufacturer offers the range of styles and colors that Eagle offers. Options. Eagle has them, and they give you the ability to differentiate your projects while increasing their value. Eagle has developed regionally specific color lines with the help of professional colorists who understand industry trends.

Eagle Roofing Products. The company of choice.

EAGLE ROOFING PRODUCTS

Eagle Design Centers are located throughout the United States to make your tile selection an easy process.



Experienced professionals inspect every roof tile to guarantee the quality our customers have come to expect. We take pride in our people. Every employee at Eagle is considered a customer service representative.

2004

Eagle's Stockton, California plant opens with the capacity to produce enough tile to protect 60,000 homes per year. Northern California and the Pacific Northwest areas are covered.

2005

The Roseville, California Design Center opens to serve Northern California customers. A second plant opens adding the capacity to protect over 83,000 homes per year.

2006

Eagle's Sumterville, Florida plant opens servicing Florida and the Southeast, and is capable of producing enough tile to protect 60,000 homes per year.

2007

The Boca Raton and Orlando, Florida Design Centers open; they are the first facilities of this kind in the Florida market.

Eagle concrete roof tile. The choice is easy.

Eagle's concrete roof tile is a smart choice for builders, roofers, architects and homeowners. Whether your interest is durability, color selection or energy efficiency, Eagle concrete roof tile is an easy choice.

Durability. Warranty.

Through rain, snow, high wind and scorching heat, a properly installed Eagle tile roof can withstand the elements providing years of worry-free performance.

- All Eagle roof tile is Class A Fire Rated.
- Eagle standard weight color thru tile passes Freeze-Thaw requirements.
- Eagle roof tile exceeds current seismic load requirements.
- Eagle roof tile is protected by a Lifetime Transferable Limited Product Warranty.
- Eagle roof tile helps to lower energy costs by reducing heat transfer through air circulation and concrete's inherent insulating properties.

Affordability

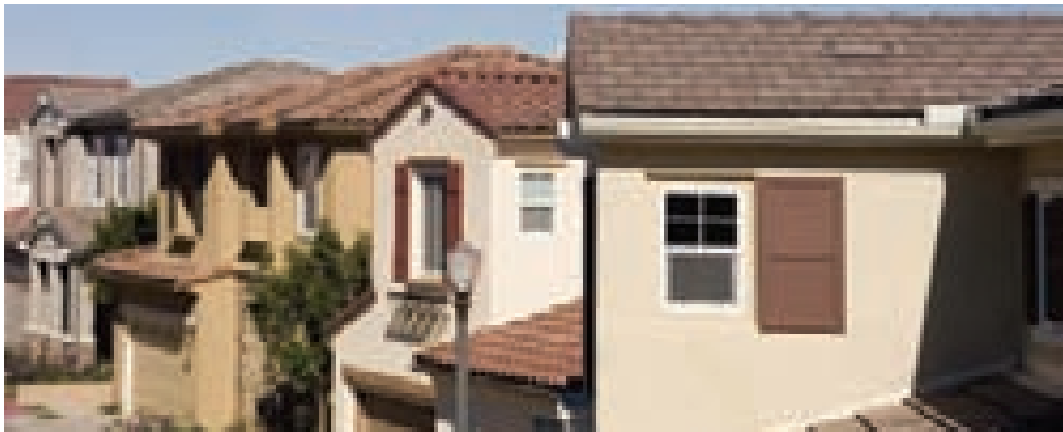
When you consider that a concrete tile roof will last for the life of the structure, the full life-cycle cost of the roof is affordable. With regular maintenance, the hassle and expense of reroofing is minimized.

Beauty. Curb Appeal.

Eagle concrete tile roofs are beautiful. The available styles and colors will help to enhance any architecture resulting in curb appeal that is not available with other roofing materials. Adding the performance and longevity of a concrete tile roof to its aesthetic qualities, results in a project that gets noticed. Whether you are a production builder looking for ways to differentiate your development or a home owner who plans to sell your home in the near future, a concrete tile roof will help increase the home's value.

Styles. Colors.

Eagle's selection of styles and colors is unmatched by any other concrete tile manufacturer. This variety allows homeowners, architects, roofers, distributors and builders the ability to find just the right shape and blend for a given architecture. Our products are made to emulate historic roofing materials—like wood shake, clay and slate—but are much more affordable alternatives. Our colors have been designed by professionals with a keen sense of aesthetics and who understand trends in exterior finishes. Whether you are looking for vibrant blends or more naturalistic hues, Eagle has a product to meet your needs.



Environmentally Friendly.

Eagle's goal is to reduce haul-off from all of its plants to a minimum. Today, Eagle surpasses any other concrete tile manufacturer in its recycling activities. The following are a few of the measures we take to be environmentally responsible.

- Reject tile is crushed and re-introduced into the manufacturing process.
- All wet-mix materials are re-introduced into the manufacturing process, including water and oxides.
- The tile mold release oil purchased is recycled from restaurant fryers. The oil is vegetable based.
- A low-nox process is employed in our tile curing chambers.
- All Eagle tile sealers are water based.
- Synthetic oils are used on machinery when possible due to their long life-span.
- Engine oil and filters from plant equipment are recycled.
- Industrial wash-down water is recycled and re-used.
- Trash that cannot be recycled is compacted to reduce landfill deposits.
- Wood tile pallets are repaired and re-used whenever possible.
- Eagle chooses the most environmentally responsible technology available when purchasing new equipment.

Energy Efficient

In addition to the inherent energy efficiency of concrete, a proper installation allows for attic and tile space ventilation. An Eagle concrete tile roof can help reduce the precious dollars spent on air conditioning and heating—a real benefit considering the escalating costs of electricity and fuel.

EAGLE ROOFING PRODUCTS

Florida

Eagle Roofing Products

Eagle's Florida Collection is specifically designed to meet the demands of the Florida market. Vibrant blends and naturalistic colors are available in the styles shown here.

To ensure your satisfaction with the tile you chose from this catalog, we request that you obtain an actual tile sample or samples from your roofing contractor, an Eagle Showroom or an Eagle Sales Representative, who will be more than happy to provide you the needed sample(s). This is requested due to the fact that the color of roofing tile is not always accurately captured or reflected in a printed photograph. Our goal is to ensure your happiness and satisfaction as a customer.

Thank you, Eagle Roofing Products

Florida Categories & Styles

Specials
Unique, color intense products

Blends
2 or more colors naturally blended for a more versatile color combination

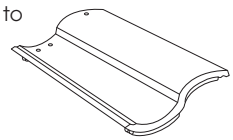
Ranges
Subtle tonal variations of 1 primary color

Standard Integrals
Standard color thru products typically with a flash,(streaks on tile)

Color Bonded
Color oxide mixed with cement applied to the surface of the tile

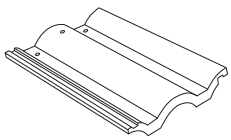
Capistrano

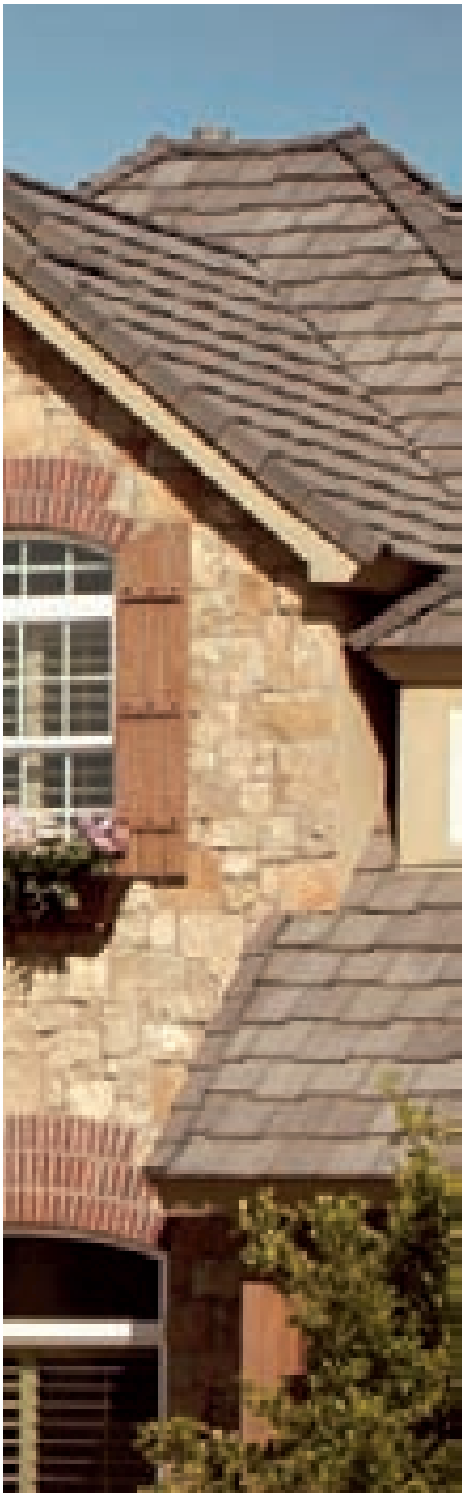
CAPISTRANO
Capistrano, a high profile tile, works naturally with Spanish Colonial, Spanish Mission and Spanish Villa architectural styles. Italianate and Mediterranean homes also have a historic connection to the look of Capistrano.



Malibu

MALIBU
Malibu, a low profile tile, with its mission tile reference, looks best on homes that exhibit elements of Spanish, Mediterranean or Italian architecture.

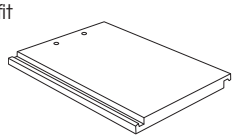




Bel Air

BEL AIR

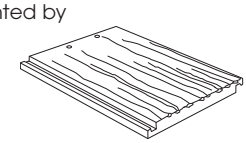
Bel Air, a flat smooth tile, offers clean lines which are a natural with French Country, French Farmhouse and Victorian architectural styles. French Provincial and English Country styled homes will also benefit from the application of Bel Air roof tile.



Ponderosa

PONDEROSA

Ponderosa, a flat textured tile, is at home with many architectural styles, including Prairie, Craftsman and Bungalow. All homes requiring a historical wood shake reference will be complemented by a Ponderosa roof.



Golden Eagle

GOLDEN EAGLE

Golden Eagle, a flat textured tile, offers an upgraded wood shake look that naturally pairs with many traditional architectural styles including Monterey, California Ranch and Cottage.

Approvals
Florida Building Code FL 7473
06-0526.08 Miami-Dade County, Florida / exp. 2011 (Capistrano)
06-0526.09 Miami-Dade County, Florida / exp. 2011 (Malibu)
06-0526.10 Miami-Dade County, Florida / exp. 2011 (Flat Profile)

Fire Resistance
Eagle tiles easily exceed the resistance requirements for burning brands and spread of flame listed in A.S.T.M. Class A fire test criteria.

Cold Weather Resistance
All Eagle tile products surpass the freeze-thaw test requirements of all known building code development agencies.

Warranty
Limited lifetime product warranty available. Note: Eagle warrants the performance of tiles only. Workmanship and accessory materials must be warranted by others.

Efflorescence
Temporary light patterning may appear on darker tiles. This is caused by efflorescence and occurs naturally as seen on sidewalks, and brick walls when alkaline deposits gravitate to surfaces exposed to moisture. The surface of every Eagle tile has been treated to minimize efflorescence. If it should occur on your roof, it should disappear completely after additional exposure to rain.

Eagle Roofing Products

Installation
Detailed installation recommendations can be found in the FRSA/TRI 07320/08-05 FOURTH EDITION Installation Manual, TRI/WSRCA ICC-ES ESR-2015P Installation Manual for Moderate Climates, TRI Design Criteria for Snow and Cold Regions or check with your local building official. For further information, please visit our website at www.eagleroofing.com.

Disclaimer
The printed colors shown in this brochure may vary from actual tile colors. Before delivery of the tile, be sure to review tile samples manufactured at the Sumterville, Florida production facility.
